SSC COMBINED GRADUATE LEVEL EXAM

GENERAL AWARENESS COMPLETE SYLLABUS MASTERY GUIDE

An organised, subject-wise breakdown of the entire SSC CGL General Awareness syllabus — 8 major subjects, 40+ topic groups and hundreds of micro-topics — built for mastery-level preparation toward the post of GST Inspector.

Covers: History · Geography · Indian Polity · Economics · General Science · Static GK & Culture · Environment & Ecology · Current Affairs

Includes: 6-month syllabus plan overview · 2-month revision & mock-test overview · Best practices & study techniques

Format: Organised, structured, printable checklist edition

PART 1

How to Use This Guide

What this document is, and the one distinction that matters.

What this is: a complete, organised checklist of the entire General Awareness (GA) syllabus for SSC CGL. The objective is that **every topic has a place** — so you can systematically mark what you have learned, practised and revised, and never leave a gap by accident.

Important distinction: SSC does **not** publish a chapter-by-chapter GA syllabus. Its official syllabus broadly specifies History, Culture, Geography, Economic Scene, General Policy, Scientific Research, Current Events and everyday scientific awareness. The breakdown in this guide **expands those areas into a practical preparation syllabus** based on what actually appears in the exam.

The 8-Subject Structure

No.	Subject	Major Coverage
01	**History**	Ancient, Medieval, Modern, Freedom Movement
02	**Geography**	Physical, Indian, World, Economic
03	**Indian Polity**	Constitution, Governance, Institutions
04	**Economics**	Basic Economics, Indian Economy, Banking
05	**General Science**	Physics, Chemistry, Biology
06	**Static GK & Culture**	Art, Literature, Awards, Organisations
07	**Environment & Ecology**	Ecosystems, Biodiversity, Climate
08	**Current Affairs & Scientific Research**	National, International, Science, Sports

How to read each subject section: each subject is broken into **sub-topics**, and each sub-topic into **micro-topics** (the specific facts, names, dates and concepts you must be able to recall). Tick each line as you complete it — that is your mastery checklist.

PART 2

Study Overview — 6 Months Syllabus + 2 Months Revision & Mocks

A planning overview (not a rigid day-by-day plan) for the 8-month cycle.

THE OVERALL ARC

- **Months 1–6 — Syllabus completion:** systematically cover all 8 subjects so that **every** topic on the checklist has been studied at least once.
- **Months 7–8 — Revision + mock exams:** no new topics; consolidate recall, build speed, and simulate the real exam through full-length mock tests.
- **Rule of thumb:** completion should feel ~80% done by the end of Month 6 — the last 20% of depth comes from revision, mocks and mistake-analysis.

Monthly Rhythm — The Overview

Phase	Months	Focus
Foundation	Month 1–2	Polity + History first (highest static-content weight); build the current-affairs daily habit from day one.
Core build-up	Month 3–4	Geography, Economics, General Science; current affairs now become second nature.
Finishing & consolidation	Month 5–6	Static GK & Culture, Environment & Ecology; complete remaining gaps; first round of topic-wise mocks.
Revision + mocks	Month 7–8	Full revision cycles, previous-year papers, full-length mock tests, speed + accuracy drills, last-mile current affairs.

Weekly Rhythm — The Overview

Day type	What the week looks like
6 study days	2–3 subjects per day in rotation; **each session = new topic + immediate self-quiz**. Rotate so every subject is touched at least twice a week.
1 mock / test day	One sectional or full mock test, followed by **mandatory mistake analysis** (note every wrong answer in a mistakes register).
Daily non-negotiables	15–30 min current affairs (18-month lookback rule), 10 min static revision (one-liner recall), and one previous-year question set.

Why this shape works: SSC GA rewards **breadth of recall** more than depth. A rotation that touches every subject weekly prevents the "forgot everything after 2 weeks" problem, and the mock-day discipline builds exam temperament well before the real exam.

PART 3

Best Practices for Mastering General Awareness

Techniques that separate a clearing score from a mastery-level score.

1. The 80/20 Rule — Prioritise High-Yield Subjects

> **Rough exam weightage for GA in SSC CGL Tier-I (approximate):** Polity and Constitution **~8–10** questions · Indian Economy & Banking **~8–10** · History **~6–8** · Geography **~6–8** · General Science **~5–7** · Static GK & Culture **~6–8** · Environment **~3–5** · Current Affairs **~8–10**.
> **Action:** give Polity, Economy, History, Geography and Current Affairs the lion's share of your time; treat Environment and miscellaneous static GK as quick-win topics.

2. Learn — Recall — Verify (The Active Loop)

1. **Learn** a topic from a reliable source (one standard book + current notes).
2. **Close the book and recall** it in one line each — dates, names, facts.
3. **Verify** against the book and mark only what you got wrong.
4. Re-recall the **wrong** items 24 hours later, then 3 days later, then a week later.

Recall is the skill the exam actually tests — passive reading feels productive but does not build recall.

3. The One-Liner Notes System

- Every fact you study should be reducible to **one line** (e.g., "Chilika Lake — largest brackish-water lagoon — Odisha — Ramsar site").
- Maintain one subject-wise notebook/register; a topic is "done" only when it fits on a page you can revise in 10 minutes.
- Prefer **tables and comparisons** for facts with many entries (dams, awards, capitals, revolutions).

4. Current Affairs — The 18-Month Rule

- SSC asks current affairs roughly from the **last 18 months** before the exam (with emphasis on the last 10–12).
- Daily: read/listen to a current-affairs digest; **write one line** per news item.
- Monthly: compile and revise the month's lines; **solve previous-year CA questions** for the same period.
- Track: government schemes (launch year, ministry, objective, beneficiaries, updates), appointments, awards, summits, and India's ranks/indices.

5. Previous-Year Questions Are the Syllabus Map

- Solve **5–8 years of CGL GA papers** first — they tell you exactly which micro-topics repeat.
- Mark every PYQ in this guide's checklist; the **starred topics** are your highest-return investments.
- Never "skip" a topic that has appeared even once in the last decade.

6. Mock Tests — The Exam Simulator

- **From Month 5:** one full mock test weekly (strictly timed, 60 minutes for Tier-I GA+other sections).
- **From Month 7:** two to three full mocks weekly; sectional tests for GA every 3–4 days.
- **Mistakes register:** every wrong answer → what was the correct fact → where it sits in this syllabus → re-learn within 24 hours.
- **Speed discipline:** GA should take **~12–15 minutes** in Tier-I; practise rounding, elimination and marking-and-returning tactics.

7. Revision Cadence (Spaced Repetition)

> **The 3-2-1 rule:** revise every topic **3 times** — after 24 hours, after 3 days, after a week. A topic revised three times within the cycle is far more likely to stay in memory than one studied deeply once.

8. Exam-Day Cleverness

- **Eliminate first:** SSC GA loves "none of these" and close-option traps; narrow to two choices before guessing.
- **Attempt in two passes:** easy recall questions first; mark and return to ambiguous ones.

- **Negative marking is real:** guess only when you can eliminate at least one option confidently.
- **Keep the last 5 minutes** for reviewing marked questions — a calm second read fixes many silly errors.

SUBJECT 01

History

4 major divisions · Ancient · Medieval · Modern · Freedom Movement (chronology revision)

A. Ancient Indian History

Sub-topic	Micro-topics to cover
Prehistoric India	Palaeolithic, Mesolithic, Neolithic, Chalcolithic, Stone Age sites
Indus Valley Civilization	Harappa, Mohenjo-Daro, Lothal, Dholavira, town planning, drainage, seals, trade, religion, decline
Vedic Period	Early Vedic, Later Vedic, Vedas, Upanishads, Brahmanas, Sabha, Samiti, social structure
Mahajanapadas	16 Mahajanapadas, Magadha, Haryanka, Shishunaga, Nanda dynasties
Religious Movements	Jainism, Buddhism, founders, teachings, councils, symbols, texts, sects
Mauryan Empire	Chandragupta Maurya, Bindusara, Ashoka, Kalinga War, administration, Arthashastra
Post-Mauryan Period	Shungas, Kanvas, Indo-Greeks, Shakas, Kushanas, Kanishka
Gupta Empire	Chandragupta I, Samudragupta, Chandragupta II, administration, literature, science, art
Post-Gupta Period	Harshavardhana, Pallavas, Chalukyas, regional kingdoms
South Indian Kingdoms	Cholas, Cheras, Pandyas, Rashtrakutas, Pallavas, Vijayanagara origins
Ancient Literature	Ramayana, Mahabharata, Sangam literature, Puranas, Sanskrit works
Ancient Science	Aryabhata, Varahamihira, Brahmagupta, Charaka, Sushruta
Ancient Art & Architecture	Stupas, pillars, caves, temples, sculpture, paintings

B. Medieval Indian History

Sub-topic	Micro-topics to cover
Early Medieval India	Rajputs, Palas, Pratiharas, Rashtrakutas
Delhi Sultanate	Slave, Khilji, Tughlaq, Sayyid, Lodi dynasties
Sultanate Administration	Iqta system, military reforms, taxation, market control
Important Rulers	Qutbuddin Aibak, Iltutmish, Razia Sultan, Alauddin Khilji, Muhammad bin Tughlaq, Firoz Shah Tughlaq
Mughal Empire	Babur, Humayun, Akbar, Jahangir, Shah Jahan, Aurangzeb
Mughal Administration	Mansabdari, Jagirdari, revenue system, military organisation
Mughal Architecture	Red Fort, Fatehpur Sikri, Taj Mahal, Humayun's Tomb
Regional Kingdoms	Vijayanagara, Bahmani, Marathas, Ahom, Sikh kingdoms
Bhakti Movement	Kabir, Guru Nanak, Mirabai, Tulsidas, Surdas, Chaitanya
Sufi Movement	Chishti, Suhrawardi, Nizamuddin Auliya, Moinuddin Chishti
Medieval Literature	Persian literature, regional literature, important authors
Travellers	Al-Biruni, Ibn Battuta, Marco Polo, Bernier

C. Modern Indian History

Sub-topic	Micro-topics to cover
Arrival of Europeans	Portuguese, Dutch, English, French, Danish
British Expansion	Carnatic Wars, Battle of Plassey, Battle of Buxar
Governor-Generals	Warren Hastings to Lord Mountbatten
British Administrative Policies	Subsidiary Alliance, Doctrine of Lapse, Permanent Settlement, Ryotwari, Mahalwari
Important Acts	Regulating Act 1773, Pitt's India Act, Charter Acts, Government of India Acts
Revolt of 1857	Causes, centres, leaders, consequences

Socio-Religious Reforms	Brahmo Samaj, Arya Samaj, Prarthana Samaj, Ramakrishna Mission, Aligarh Movement
Reformers	Raja Ram Mohan Roy, Ishwar Chandra Vidyasagar, Jyotirao Phule, Swami Vivekananda
Tribal & Peasant Movements	Santhal, Munda, Indigo, Deccan riots, other peasant uprisings
Formation of INC	Founders, sessions, presidents, Moderates and Extremists
Partition of Bengal	Swadeshi Movement, Boycott Movement
Revolutionary Movement	Ghadar Party, HSRA, Anushilan Samiti, revolutionary personalities
Muslim League	Formation, objectives, political developments
Gandhian Era	Champaran, Kheda, Ahmedabad, Non-Cooperation, Civil Disobedience, Quit India
Important Events	Jallianwala Bagh, Simon Commission, Nehru Report, Round Table Conferences
Constitutional Development	1909, 1919, 1935 Acts, Cabinet Mission, Mountbatten Plan
Independence	INA, Naval Mutiny, Partition, Independence Act 1947

D. Freedom Movement — Chronology to memorise (special revision):

- ☐ 1885 — Formation of Indian National Congress
- ☐ 1905 — Partition of Bengal
- ☐ 1906 — Formation of Muslim League
- ☐ 1907 — Surat Split
- ☐ 1916 — Lucknow Pact
- ☐ 1917 — Champaran Satyagraha
- ☐ 1919 — Rowlatt Act and Jallianwala Bagh
- ☐ 1920 — Non-Cooperation Movement
- ☐ 1930 — Dandi March
- ☐ 1931 — Gandhi-Irwin Pact
- ☐ 1942 — Quit India Movement
- ☐ 1947 — Independence

World History is **not** a separately specified focus in SSC's GA syllabus — cover only selective high-yield basics such as major revolutions, world wars and important historical developments.

SUBJECT 02

Geography

4 major divisions · Physical · Indian · World · Economic

A. Physical Geography

Sub-topic	Micro-topics
Universe	Solar system, planets, satellites, asteroids, comets
Earth	Shape, rotation, revolution, seasons, time zones
Latitudes & Longitudes	Equator, Tropics, Arctic Circle, Prime Meridian, International Date Line
Earth's Interior	Crust, mantle, core
Rocks	Igneous, sedimentary, metamorphic
Landforms	Mountains, plateaus, plains, valleys
Plate Tectonics	Continental drift, earthquakes, volcanoes
Atmosphere	Layers, composition, temperature, pressure
Winds	Planetary, seasonal, local winds
Rainfall	Convectional, orographic, cyclonic
Climate	Climatic zones, monsoon, El Niño, La Niña
Oceanography	Ocean floors, currents, tides, waves
Natural Disasters	Earthquakes, tsunamis, cyclones, floods, droughts

B. Indian Geography

Sub-topic	Micro-topics
Location	Latitudinal and longitudinal extent, neighbours, boundaries
Physiographic Divisions	Himalayas, Northern Plains, Peninsular Plateau, Coastal Plains, Islands
Mountain Ranges	Himalayas, Aravalli, Vindhya, Satpura, Western and Eastern Ghats
Rivers	Himalayan and Peninsular rivers, tributaries, river basins
Lakes	Wular, Chilika, Sambhar, Pulicat, Loktak
Dams	Major dams, rivers and states
Climate	Indian monsoon, seasons, rainfall distribution
Soils	Alluvial, black, red, laterite, desert, mountain
Natural Vegetation	Tropical evergreen, deciduous, thorn, montane, mangrove
Agriculture	Kharif, Rabi, Zaid, major crops, cropping patterns
Minerals	Coal, iron ore, bauxite, mica, petroleum
Industries	Iron and steel, textiles, IT, petroleum, cement
Transport	Railways, roads, ports, airports, waterways
Population	Census concepts, density, distribution, migration, urbanisation
States & Geography	Capitals, boundaries, national parks, important geographical locations

C. World Geography

Sub-topic	Micro-topics
Continents	Seven continents and their characteristics
Oceans	Pacific, Atlantic, Indian, Arctic, Southern
Mountains	Himalayas, Andes, Rockies, Alps, Atlas

Plateaus	Tibetan, Deccan, Brazilian, Iranian
Deserts	Sahara, Gobi, Kalahari, Atacama
Rivers	Nile, Amazon, Yangtze, Mississippi, Danube
Lakes	Caspian Sea, Superior, Victoria, Baikal
Straits & Canals	Malacca, Hormuz, Gibraltar, Suez, Panama
Grasslands	Prairies, Pampas, Steppes, Velds, Downs
Countries	Capitals, currencies, locations, neighbouring countries
Important Locations	Equator-crossing countries, landlocked countries, island nations
Natural Resources	Major petroleum, mineral and agricultural regions

D. Economic Geography

- Distribution of minerals
- Major industrial regions
- Major agricultural regions
- Energy resources
- Global trade routes
- Major ports
- Population distribution
- Transport and communication networks

SUBJECT 03

Indian Polity & Constitution

5 major divisions · Constitutional Foundation · Rights & Duties · Union · States & Local · Judiciary & Institutions

A. Constitutional Foundation

Sub-topic	Micro-topics
Historical Background	Regulating Act 1773 to Indian Independence Act 1947
Constituent Assembly	Formation, committees, members, important dates
Constitution Making	Drafting Committee, chairman, adoption, enforcement
Salient Features	Federal, parliamentary, democratic, secular, republic
Preamble	Keywords, objectives, amendments
Sources of Constitution	UK, USA, Ireland, Canada, Australia, USSR and others
Parts of Constitution	All 25 parts and their subjects
Articles	Important articles and their provisions
Schedules	All 12 schedules
Amendments	Important constitutional amendments
Citizenship	Articles 5–11, acquisition and termination

B. Fundamental Rights & Duties

Sub-topic	Micro-topics
Fundamental Rights	Articles 12–35
Right to Equality	Articles 14–18
Right to Freedom	Articles 19–22
Right Against Exploitation	Articles 23–24
Freedom of Religion	Articles 25–28
Cultural & Educational Rights	Articles 29–30
Constitutional Remedies	Article 32, writs
Directive Principles	Articles 36–51, classification
Fundamental Duties	Article 51A, 42nd Amendment
Emergency Provisions	National, State and Financial Emergencies

C. Union Government

Sub-topic	Micro-topics
President	Election, qualifications, powers, impeachment
Vice-President	Election, powers, removal
Prime Minister	Appointment, powers, functions
Council of Ministers	Cabinet, collective responsibility
Parliament	Lok Sabha, Rajya Sabha, composition
Parliamentary Procedures	Sessions, quorum, question hour, zero hour
Bills	Ordinary, Money, Financial, Constitutional Amendment
Parliamentary Committees	PAC, Estimates Committee, COPU
Speaker	Election, powers, removal
Attorney General	Appointment, powers, duties

D. State Government & Local Government

Sub-topic	Micro-topics
Governor	Appointment, powers, discretionary powers
Chief Minister	Appointment, responsibilities
State Legislature	Legislative Assembly, Legislative Council
State Judiciary	High Courts, subordinate courts
Panchayati Raj	73rd Amendment, three-tier system
Municipalities	74th Amendment, urban local bodies
Local Governance	Gram Sabha, functions, finance

E. Judiciary & Constitutional Institutions

Sub-topic	Micro-topics
Supreme Court	Composition, jurisdiction, judges
High Courts	Jurisdiction, appointment, powers
Judicial Review	Meaning, scope
Judicial Activism	PIL, judicial independence
Election Commission	Appointment, functions
UPSC	Composition, functions
Finance Commission	Composition, functions
CAG	Appointment, auditing functions
National Commissions	SC, ST, BC commissions
Other Institutions	NITI Aayog, NHRC, CVC, CIC, Lokpal
Constitutional Bodies	Constitutional vs statutory vs executive bodies

F. Important Constitutional Concepts

- Federalism and Centre-State relations
- Inter-State Council
- Emergency provisions
- Anti-defection law
- Official language provisions
- Constitutional amendment procedure
- Basic Structure Doctrine
- Writs: Habeas Corpus, Mandamus, Prohibition, Certiorari, Quo Warranto
- Schedules and their corresponding amendments
- Important Supreme Court constitutional judgments

SUBJECT 04

Economics

5 major divisions · Basic Economics · Indian Economy · Banking · Government Schemes · Organisations & Reports

A. Basic Economics

Sub-topic	Micro-topics
Introduction	Meaning, scope, branches of economics
Economic Systems	Capitalism, socialism, mixed economy
Sectors	Primary, secondary, tertiary
Demand	Law of demand, demand curve, determinants
Supply	Law of supply, supply curve, determinants
Market	Perfect competition, monopoly, oligopoly
Utility	Marginal and total utility
Production	Factors of production, productivity
Cost	Fixed, variable, average, marginal cost
Revenue	Total, average, marginal revenue
National Income	GDP, GNP, NNP, NDP, national income
Economic Growth	Growth vs development, per capita income

B. Indian Economy

Sub-topic	Micro-topics
Indian Economy	Features, structure, characteristics
Economic Planning	Five-Year Plans, objectives, outcomes
NITI Aayog	Formation, functions, governing council
Agriculture	Green, White, Blue, Yellow revolutions
Industry	Industrial policies, MSMEs, Make in India
Service Sector	IT, tourism, banking, transport
Poverty	Definitions, poverty alleviation
Unemployment	Types, measurement, causes
Inflation	Demand-pull, cost-push, CPI, WPI
Fiscal Policy	Government expenditure, taxation
Monetary Policy	Repo, reverse repo, CRR, SLR
Budget	Revenue, capital, fiscal deficit, revenue deficit
Taxation	Direct, indirect, GST, income tax
External Sector	Exports, imports, balance of payments
International Trade	WTO, IMF, World Bank

C. Banking & Financial Awareness

Sub-topic	Micro-topics
RBI	Establishment, functions, monetary authority
Commercial Banks	Public, private, foreign banks
Banking Terms	Deposits, loans, NPA, credit
Financial Institutions	NABARD, SIDBI, EXIM Bank

Digital Banking	UPI, NEFT, RTGS, IMPS
Financial Inclusion	Jan Dhan Yojana, banking access
Capital Market	Primary, secondary markets
Stock Exchanges	NSE, BSE, SEBI
Insurance	IRDAI, life and general insurance
Financial Instruments	Bonds, shares, debentures

D. Government Economic Schemes

- ☐ PM Jan Dhan Yojana
- ☐ MGNREGA
- ☐ PM-KISAN
- ☐ PM Fasal Bima Yojana
- ☐ Ayushman Bharat
- ☐ Mudra Yojana
- ☐ Startup India
- ☐ Stand-Up India
- ☐ Skill India
- ☐ National Food Security Act
- ☐ PDS and ration distribution
- ☐ Direct Benefit Transfer

E. Economic Organisations & Reports

Category	Micro-topics
International Institutions	IMF, World Bank, WTO, ADB, AIIB
UN Economic Bodies	UNDP, UNCTAD, ILO
Indian Institutions	RBI, SEBI, NABARD, NITI Aayog
Reports	Human Development Report, World Development Report, Global Hunger Index
Indices	HDI, CPI, Ease of Doing Business (historical), Global Innovation Index
Economic Indicators	GDP growth, inflation, unemployment, fiscal deficit

Important distinction: the topics above are for **General Awareness**. SSC CGL **Paper III – General Studies (Finance and Economics)** is a separate specialised paper for eligible posts such as Assistant Audit Officer / Assistant Accounts Officer. Do **not** confuse its deeper syllabus with ordinary GA preparation.

SUBJECT 05

General Science

3 major sciences + technology · Physics · Chemistry · Biology · Scientific Research & Technology

A. Physics

Sub-topic	Micro-topics
Units & Measurements	SI units, derived units, measuring instruments
Motion	Distance, displacement, speed, velocity, acceleration
Laws of Motion	Newton's three laws, momentum, inertia
Force & Gravitation	Gravity, mass, weight, free fall
Work & Energy	Work, power, kinetic and potential energy
Heat	Temperature, heat transfer, conduction, convection, radiation
Sound	Waves, frequency, amplitude, echo, ultrasound
Light	Reflection, refraction, mirrors, lenses
Human Eye	Defects, correction, accommodation
Electricity	Current, voltage, resistance, Ohm's law
Magnetism	Magnets, electromagnets, electromagnetic induction
Modern Physics	Atom, nucleus, radioactivity, nuclear fission and fusion
Optics	Dispersion, spectrum, rainbow, scattering
Devices	Transformer, generator, motor, thermometer, barometer

B. Chemistry

Sub-topic	Micro-topics
Basic Chemistry	Matter, elements, compounds, mixtures
Atomic Structure	Proton, neutron, electron, atomic number, mass number
Periodic Table	Groups, periods, metals, non-metals
Chemical Bonding	Ionic, covalent, metallic bonds
Chemical Reactions	Combination, decomposition, displacement, oxidation, reduction
Acids & Bases	Properties, pH, indicators, neutralisation
Salts	Common salt, baking soda, washing soda, bleaching powder
Metals & Non-Metals	Properties, extraction, alloys
Carbon Chemistry	Hydrocarbons, organic compounds, polymers
Everyday Chemistry	Soaps, detergents, cement, glass, fertilisers
Gases	Oxygen, nitrogen, hydrogen, carbon dioxide
Fuels	Coal, petroleum, natural gas, LPG, CNG
Environmental Chemistry	Air pollution, water pollution, acid rain
Chemistry in Daily Life	Medicines, preservatives, food additives

C. Biology

Sub-topic	Micro-topics
Cell Biology	Cell structure, organelles, plant and animal cells
Tissues	Plant tissues, animal tissues
Human Body	Digestive, respiratory, circulatory systems

Excretion	Kidneys, nephron, urine formation
Nervous System	Brain, spinal cord, neurons
Endocrine System	Hormones, glands, functions
Reproduction	Human reproduction, reproductive health
Genetics	DNA, RNA, genes, chromosomes, heredity
Evolution	Natural selection, Darwin, evolution
Nutrition	Nutrients, vitamins, minerals, deficiency diseases
Diseases	Bacterial, viral, fungal, protozoan diseases
Immunity	Antigens, antibodies, vaccines
Blood	Blood groups, components, clotting
Plant Biology	Photosynthesis, respiration, transpiration
Plant Reproduction	Pollination, fertilisation, seed formation
Classification	Five-kingdom classification, microorganisms
Ecology	Food chains, food webs, biological interactions

D. Scientific Research & Technology

- Space science: ISRO, NASA, satellites, launch vehicles
- Indian space missions: Chandrayaan, Mangalyaan, Aditya-L1, Gaganyaan
- Defence technology: missiles, aircraft, submarines, DRDO
- Nuclear technology: nuclear reactors, atomic energy
- Biotechnology: DNA technology, genetic engineering, cloning
- Computer science: AI, machine learning, quantum computing
- Information technology: internet, cybersecurity, digital technology
- Medical research: vaccines, diagnostic technologies
- Nobel Prize-winning scientific discoveries
- Major Indian scientific institutions and their founders

SUBJECT 06

Static GK & Indian Culture

6 major divisions · Art & Culture · Books & Literature · Awards · Sports · Organisations · Miscellaneous GK

A. Indian Art & Culture

Sub-topic	Micro-topics
Classical Dances	Bharatanatyam, Kathak, Kathakali, Kuchipudi, Odissi, Manipuri, Mohiniyattam, Sattriya
Folk Dances	Bihu, Garba, Ghoomar, Lavani, Bhangra, Chhau, Yakshagana
Music	Hindustani, Carnatic, vocal traditions
Musical Instruments	Sitar, tabla, veena, flute, sarod, mridangam
Painting	Madhubani, Warli, Pattachitra, Kalamkari, Miniature paintings
Architecture	Nagara, Dravida, Vesara, Indo-Islamic architecture
Temples	Khajuraho, Konark, Brihadeeswara, Meenakshi
Caves	Ajanta, Ellora, Elephanta, Udayagiri
UNESCO Heritage	Indian World Heritage Sites, cultural and natural sites
Festivals	National, regional, religious and harvest festivals
Handicrafts	Textiles, pottery, weaving, embroidery
Theatre	Classical Sanskrit theatre, regional folk theatre

B. Books & Literature

- Ancient Indian texts: Vedas, Upanishads, Puranas
- Buddhist literature: Tripitaka, Jataka tales
- Jain literature: Agamas
- Classical Sanskrit authors: Kalidasa, Banabhatta, Panini
- Medieval poets: Kabir, Tulsidas, Amir Khusrau
- Modern Indian authors
- Famous books and their authors
- Autobiographies and biographies
- Nobel Prize in Literature
- Jnanpith Award winners
- Important literary works in regional languages

C. Awards & Honours

Sub-topic	Micro-topics
Civilian Awards	Bharat Ratna, Padma Vibhushan, Padma Bhushan, Padma Shri
Gallantry Awards	Param Vir Chakra, Ashoka Chakra, Maha Vir Chakra
Literary Awards	Jnanpith, Sahitya Akademi
Film Awards	National Film Awards, Dadasaheb Phalke Award
Sports Awards	Major Dhyan Chand Khel Ratna, Arjuna Award, Dronacharya Award
International Awards	Nobel, Ramon Magsaysay, Pulitzer
Scientific Awards	Abel Prize, Fields Medal, major science honours

D. Sports & Games

- National and international sports
- Olympic Games and Paralympics
- Asian Games and Commonwealth Games
- Cricket: formats, trophies, tournaments
- Football: FIFA, World Cup, major competitions

- Hockey: rules, trophies, major achievements
- Badminton: tournaments, trophies, terminology
- Tennis: Grand Slams, surfaces, terminology
- Chess: championships, titles, terminology
- Athletics: events and records
- Sports terminology
- Famous players and their achievements
- Stadiums and their locations
- National sports awards

E. Important Organisations & Institutions

Sub-topic	Micro-topics
United Nations	Formation, headquarters, organs
UN Agencies	WHO, UNESCO, UNICEF, FAO, ILO
Financial Institutions	IMF, World Bank, WTO
Regional Organisations	SAARC, ASEAN, BRICS, G20, SCO
Security Organisations	NATO, INTERPOL
Indian Institutions	ISRO, DRDO, CSIR, ICMR, ICAR
Cultural Institutions	Sangeet Natak Akademi, Sahitya Akademi, Lalit Kala Akademi
Indian Regulatory Bodies	RBI, SEBI, TRAI, IRDAI

F. Miscellaneous Static GK

- ☐ National symbols of India
- ☐ National parks and wildlife sanctuaries
- ☐ Biosphere reserves
- ☐ Important dams and projects
- ☐ Important stadiums
- ☐ Important airports and seaports
- ☐ Famous personalities and nicknames
- ☐ First in India and first in the world
- ☐ Largest, smallest, highest and longest
- ☐ Important days and their themes
- ☐ Indian states and capitals
- ☐ Union Territories
- ☐ Important books and authors
- ☐ Important inventions and discoveries
- ☐ Headquarters of important organisations
- ☐ Currencies and capitals of countries
- ☐ Famous monuments and locations
- ☐ Indian festivals and fairs

SUBJECT 07

Environment & Ecology

4 major divisions · Ecology Fundamentals · Biodiversity · Pollution · Climate Change & Conventions

A. Ecology Fundamentals

Sub-topic	Micro-topics
Ecosystem	Structure, components, functions
Biotic Components	Producers, consumers, decomposers
Abiotic Components	Air, water, soil, sunlight
Food Chain	Trophic levels, energy flow
Food Web	Interconnected food chains
Ecological Pyramids	Number, biomass, energy
Biogeochemical Cycles	Carbon, nitrogen, oxygen, water cycles
Ecological Succession	Primary and secondary succession
Species Interactions	Mutualism, parasitism, competition, predation
Biomes	Forest, desert, grassland, tundra, aquatic

B. Biodiversity & Conservation

- Biodiversity: genetic, species and ecosystem diversity
- Biodiversity hotspots
- Endemic and endangered species
- Extinct and critically endangered species
- IUCN Red List categories
- Wildlife Protection Act, 1972
- Biological Diversity Act, 2002
- Project Tiger
- Project Elephant
- Project Snow Leopard
- National parks
- Wildlife sanctuaries
- Biosphere reserves
- Ramsar wetlands
- Important Indian wildlife species
- Conservation organisations

C. Environmental Pollution

- Air pollution
- Water pollution
- Soil pollution
- Noise pollution
- Plastic pollution
- E-waste
- Industrial pollution
- Acid rain
- Ozone depletion
- Greenhouse effect
- Global warming
- Carbon footprint
- Waste management
- Renewable and non-renewable resources

D. Climate Change & International Conventions

- Climate change and its causes
- Global warming and consequences
- Paris Agreement
- Kyoto Protocol
- Montreal Protocol
- UNFCCC
- Convention on Biological Diversity
- CITES
- Ramsar Convention
- IPCC
- COP climate conferences
- Sustainable Development Goals
- International Solar Alliance

SUBJECT 08

Current Affairs & Scientific Research

8 major divisions · National · International · Schemes · Appointments · Sports · Awards · Reports · Science & Tech

A. National Current Affairs

- Government policies and decisions
- Important bills and acts
- New government schemes
- Cabinet decisions
- Important appointments
- National awards
- Important national events
- Important Supreme Court judgments
- Major infrastructure projects
- Government initiatives
- Important reports and surveys
- State-level developments

B. International Current Affairs

- International summits
- G20, BRICS, SCO, G7, ASEAN
- India and neighbouring countries
- International agreements
- Wars and conflicts
- Diplomatic relations
- International organisations
- New country developments
- Important international appointments
- Global economic developments

C. Government Schemes — Learn These 7 Points for Every Scheme

For every important scheme, learn:

1. Launch year
2. Launching ministry
3. Objective
4. Target beneficiaries
5. Important features
6. Funding pattern, if relevant
7. Recent updates

Cover schemes related to: Agriculture · Education · Health · Women and children · Employment · Financial inclusion · Rural development · Digital India · Social welfare.

D. Appointments & Personalities

- President, Vice-President, Prime Minister
- Governors and Chief Ministers
- Cabinet ministers
- Chief Justice of India
- Election Commissioners
- Heads of constitutional bodies
- Heads of international organisations
- Important CEOs and institutional heads
- Nobel laureates
- Important Indian and international personalities

E. Sports Current Affairs

- International tournaments
- Indian sporting achievements
- Olympic and Paralympic achievements
- World championships
- Cricket tournaments
- Major records
- Tournament winners and runners-up
- Sports awards
- Important sports personalities

F. Awards & Recognitions

- Nobel Prizes
- Bharat Ratna and Padma Awards
- National Film Awards
- Booker Prize
- International literary awards
- Sports awards
- Science and technology awards
- Important national honours

G. Reports, Rankings & Indices

For each report, learn: the publishing organisation, purpose, India-related findings and important rankings.

Cover: Human Development Index · Global Hunger Index · World Happiness Report · Global Innovation Index · Corruption Perceptions Index · Global Gender Gap Report · Environmental Performance Index · Important Indian government reports · Census-related updates and surveys.

H. Science & Technology Current Affairs

- ISRO missions
- DRDO developments
- Defence acquisitions
- Missile tests
- Space exploration
- Artificial intelligence developments
- Biotechnology
- Medical discoveries
- Vaccines and diseases
- Quantum computing
- Semiconductor developments
- Important scientific discoveries

PART 4

Additional Coverage You Should Not Miss

Cross-subject areas that strengthen your GA coverage beyond the 8 main subjects.

Additional topic	What to include
India & Neighbours	Borders, capitals, currencies, rivers, important agreements
Indian Culture	Languages, tribes, customs, heritage
Census & Demographics	Population, literacy, density, sex ratio, migration
Agriculture	Crops, seasons, irrigation, agricultural revolutions
Defence Awareness	Military commands, ranks, exercises, missiles
Important Days	National and international days, themes
Inventions & Discoveries	Inventors, discoveries, scientific milestones
Indian Geography Mapping	States, capitals, rivers, dams, national parks
Government Initiatives	Ministries, schemes, flagship programmes
Important Personalities	Historical, scientific, political and cultural personalities

PART 5

Mastery Checklist — The 8-Subject Preparation Map

Tick each subject as you complete it; tick sub-topics as you revise them. This is the master progress tracker.

No.	Subject	Sub-topics covered	1st read	Revision done
01	**History**	Ancient · Medieval · Modern · Freedom Movement chronology		
02	**Geography**	Physical · Indian · World · Economic		
03	**Indian Polity**	Constitution · Rights & Duties · Union · States & Local · Judiciary		
04	**Economics**	Basic · Indian Economy · Banking · Schemes · Reports		
05	**General Science**	Physics · Chemistry · Biology · Sci-Tech research		
06	**Static GK & Culture**	Art & Culture · Literature · Awards · Sports · Organisations · Misc GK		
07	**Environment & Ecology**	Ecology · Biodiversity · Pollution · Climate conventions		
08	**Current Affairs**	National · International · Schemes · Appointments · Sports · Awards · Reports · Sci-Tech		

THE MASTERCY TEST — 10 questions to prove mastery of this syllabus

1. Which article guarantees the Right to Constitutional Remedies, and what writs can the Supreme Court issue?
2. Name the five major revolutions in Indian agriculture (Green, White, Blue, Yellow, and one more) and their lead crops/outputs.
3. Arrange these in chronological order: Battle of Plassey, Revolt of 1857, Dandi March, Quit India Movement.
4. Name four Ramsar wetlands in India and their states.
5. What is the difference between GDP and GNP? Define NNP and NDP.
6. List the classical dances of India with their states of origin.
7. Which constitutional body recommends the distribution of tax revenues between Centre and States?
8. What are the 7 key facts to remember about any government scheme?
9. Name India's major river systems and their origins.
10. What is the 18-month rule for SSC current affairs, and why do previous-year papers matter most?

If you can answer all ten quickly and correctly, you are on track for mastery-level GA.

CLOSING NOTE

Your Path to GST Inspector

Final reminders for the 8-month cycle.

1. Breadth first, depth second. SSC GA rewards how much you can recall, not how deep you know one topic. Finish the entire checklist before going deep on any single subject.

2. Consistency beats intensity. 2 hours daily + 30 minutes of current affairs beats a 10-hour weekend binge. The 3-2-1 revision rule keeps everything in memory.

3. Mocks are not optional. From Month 5, the mistakes register is your most valuable book. Every wrong answer is a fact you will never forget again.

4. Target: mastery, not minimum. A GST Inspector post demands a strong Tier-I score and solid Tier-II performance. Aim to answer GA in under 15 minutes with 85%+ accuracy.

Remember: SSC does not publish a chapter-by-chapter GA syllabus. This guide expands the official broad categories into a practical, complete preparation map. Treat it as your master checklist — every topic has a place, and every place can be ticked.
